DRAIN MAINTENANCE PRODUCTS AND SOLUTIONS

Thankyou for your enquiry regarding the great King Dungo.

Please find information regarding the new and improved paddock cleaner formally know as the “Mini Dungo”. This is one serious sucker that will get the job done effortlessly with 10 times the power of the next best machine. This Aussie built beauty will take pride of place in the garage where it will be most of the time. That’s because it will slash your work load and allow you to spend more time with your horses. You will enjoy cleaning the paddocks with this little ripper so much you will want to do your next door neighbours paddock just for fun.

#### King Dungo Specifications

- Super powerful 14Hp electric start petrol engine
- Extra strong 1” crank shaft
- An Amazing 2760m<sup>3</sup> air flow per minute
- Only 125kg
- Tough Steel construction - no plastic parts

# DRAINCHEM

DRAIN MAINTENANCE PRODUCTS AND SOLUTIONS

- The King Dungo has proved to be the most reliable and effective machine on the market.
- Exceptional power and well thought out systems make your work easier
- Low maintenance, low tech, loads of power
- Fastest pick up with fast and easy emptying system
- Manure is macerated into fine particles ideal for fertiliser
- Disposal is by a 200lt bagging system, but you can spray into a trailer or back onto the paddock
- No scrapping out manure from the collection point
- Powder coated finish in Caterpillar yellow because it's that tough
- Tool free operations
- Super fast manure collection and disposal with limited effort.
- 600mm wide vacuum nozzle so there is no manual labour, just drive
- 1200mm wide spring steel rack system mounted on the frame rolls manure to the nozzle.
- Heavy duty hose from fan to suction point
- No suction nozzle to struggle with
- Swing down jockey wheel for easy to manoeuvring when un hitched
- The King Dungo cleans 1.5 metres of paddock with every pass
- The bag opens at the bottom allowing you to stock pile manure where you want it.
- 200 litre hessian bags also available
- Not the cheapest but the best value and performance
- Ideal for wet and dry flat, undulating and uneven surfaces
- Optional hose allows you to muck out stables effortlessly
- Most customers owned a Greystanes unit that wouldn't do the job
- **Fantastic value only \$6,500.00 plus GST if applicable**

Compare the horse power, airflow, build quality and build materials of other Manure cleaners and you will see the value in both the purchase price and the reduced labour time required to clean your paddocks.

I look forward to further discussing this with you

Kind regards

**Marshall Horne**
